

**Interview of Tristan Hartling (FR)** (translated from French)  
**Participant in the Geiger counter workshop led by Erich Berger @ la Gaîté Lyrique in Paris 13-14.12.2014**

**> What attracted you in this workshop and what were your expectations?**

I am interested in nuclear power and its specificities (phosphorescence, radiation).

**> Can you describe what things you learned in this workshop? What did you learn that was unexpected?**

I learned about the principles of particule detection.

**> What are you going to do with this knowledge now?**

I will get better marks at school!

**> Would you like to develop these skills/knowledge further or was what you learned sufficient for your own objectives?**

Building an electronic circuit made me feel like creating mine own for future projects.

**> Will you collaborate in future with the people you met in the workshop?**

As we all were very eager to learn, it turned out to be a very productive workshop. Collaborating would be fruitful!
