LIVING SPACES

PI::ELACHE 2015

DECENTRALISED URBAN FESTIVAL

* 23 - 27 SEPT * HELSINKI *

LIVINGSPLANES.PIXELACHE.AC

Pixelache comes back to Helsinki!

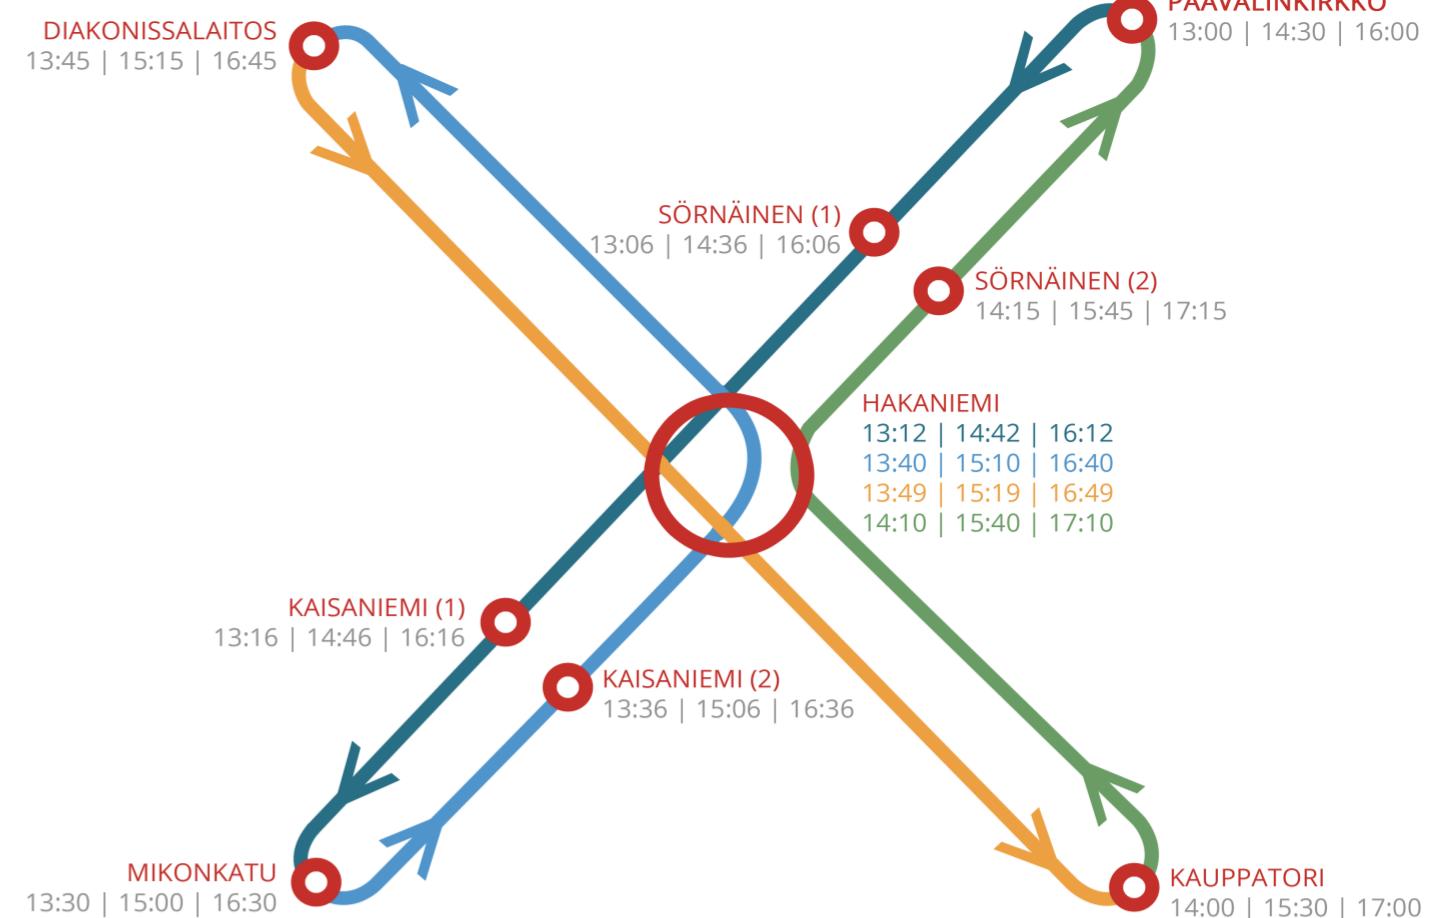

Living Spaces concentrates on the urban environment of Helsinki and tries to use any potential city space, whether public, private or in-between, as a playground for the festival's manifestations of creative and participatory culture. Instead of being based in one static location, the festival employs cultural decentralisation as a methodology, spreading its activities across the centre and periphery of this dynamic, constantly evolving city.

Living Spaces encourages the investigation of everyday urban life, understood as a dynamic, networked, self-regulating system filled with complex and chaotic interactions. Through emerging artistic, technological and social practices the festival will focus on new concepts, inventive strategies and methods for the flexible interpretation and exploration of public and private urban space.

Our goal is to re-imagine the city as a playground, a sandbox for positive change and an opportunity for civic engagement and new awareness of cityscape.

livingspaces.pixelache.ac

Living Spaces Tram operates from Friday 25.09 to Sunday 27.09

requires registration on the festival webpage
no registration needed
